

All About ...

DEMENTIA IN NHS HEALTH CHECKS

Workshop Overview

Do you want to have a better understanding of dementia risk reduction?

Did you know dementia awareness and risk reduction is now for everyone who has an NHS Health Check?

Our dementia prevention and risk messaging workshop course is underpinned by the Best Practice Guide December 2017 where Dementia awareness and sign posting and Dementia risk reduction messaging remain key components of the NHS Health Check.

We will provide delegates with the knowledge and understanding to support them carrying out dementia risk reduction messaging in the NHS Health Check.

Each workshop will be led by either Michaela Nuttall or Joanne Loades, both highly experienced trainers and recognised experts in the prevention and management of CVD

Workshop Content

Big Fat Dementia quiz!

The burden of dementia

Understanding dementia

NHS Health Checks: why & where does it fit?

What can be done?

What can't be done?

How blood pressure, diabetes, obesity and high cholesterol impact on dementia

Risk reduction of dementia through lifestyle changes

Signposting into Local and National services

'The Dementia Workshop was delivered in a way that inspired our Nurses and HCA's to engage, contribute and get the most learning out of the day. This means they now feel more confident and knowledgeable in the communication of Dementia Risk and Risk reduction.'
